MINING NOTES

REPORTS OF SUPERINTENDENTS.

Bullion Shipments-Progress of Explorations. Doings and Condition of the Local Stock Market.

Virginia, Nev., January 12th.—The following Superintendents' reports were filed here

OPRIR—On the 1465 foot level in the sound date, 300 feet from the old east crosscut, a west crosscut is advanced 89 feet and is now in porphyry, clay -On the 1465-foot level in the south drift,

con. Cal. and Virginia—The usual quantity and grade of ore is being extracted from the various openings on the 1460, 1435, 1500, 1600. 1650 and 1950-foot levels. On the 1650-foot level, in east crosscut No. 2, from the main north drift from the Con. Virginia shaft, east of upraise No 3, we are stoping ore of good quality. The stopes on the seventh and eleventh floors above this level are showing ore of fair quality. From the bottom of the winze, 60 feet below end of the south drift, a north drift is advanced 29 feet. During the week 1156 tons and 1200 pounds of ore were shipped to the Morgan mill, and 1235 tons and 570 pounds to the Eureka. The average assay value of all ore worked at these mills during the week, according to battery samples, was \$30 10. Bullion valued at \$68,917 55, by assay, was shipped to San Francisco during the week. Bullion valued at sout \$15,400 is on hand in the assay office.

Savage—We shipped during the week 438 tons of ore, showing an average value of \$18 60 per ton from battery sample assays. The ore stopes on the 400, 500 and 700-foot levels are yielding as usual.

HALE AND NOECROSS—During the week we shipped 438 tons of ore to the Mexican mill showing an average value of \$22 93 per ton by battery sample assays. Bullion is on hand valued at \$89,015, and will be shipped on the December account. The 500-foot level, north drift, continues in good ore. A south drift is following the ore-cut into the 600-foot level, north drift is following the ore-cut into the 600-foot level, north drift is following the ore-cut into the 600-foot level, north drift is following the ore-cut into the 600-foot level, week drift.

CHOLLER—We continue crushing daily at the CON. CAL. AND VIRGINIA—The usual quantity and

joint Potosi slopes.

BULLION—The winze bottom below the 640-foot level is still in quartz. Explorations are in progress on the 500-foot level.

on the 500-foot level.

OVERMAX—We extracted 321 tons of ore during the week, and shipped bullion valued at \$7540.

Baltimore—Ore is still being extracted in the explorations above and on the 338-foot level.

JUSTICE—The mill is crushing about 40 tons of ere daily, battery samples showing an average assay value of \$36 per ton.

ALTA—The mill continues crushing about 30 tons of ore battery samples assays showing an average.

ere daily, battery samples showing an average assay value of \$36 per ton.

ALTA—The mill continues crushing about 30 tons of ore, battery samples assays showing an average value of about \$30 per ton.

BEST & BELCHER—On the 300-foot level the incline winze is 50 feet below the 300-foot level. East crosscut No. 2 is extended 22 feet, and from this point a north dirft is advanced 24 feet. The formation is porphyry and quartz, showing value. In the incline winze, 100 feet below the 300-foot level, another drift, started 10 feet east of the winze, is advanced 40 feet, the formation being porphyry and quartz. At a point 27 feet north of east crosscut No. 1 west crosscut No. 1 is advanced 23 feet. The formation is porphyry and quartz, showing value.

CHALLENGE—Ore shipments for the week aggregate 210 tons, showing an average assay value of \$33 09 per ton.

CONFIDENCE—We shipped 435 tons of ore during the week, pulp assays showing an average value of \$33 09 per ton. The raise above the 1200-foot level is still in fair quality ore. The 1300-foot level south dirft, is still in low grade quartz.

OCCIDENTAL—On the 300-foot level from the west crosscut from the main tunnel line, the north lateral 30 feet. From these openings 15 tons of ore, assaying \$40 per ton, was extracted. On the 450 level, 65 feet below the track floor, the south drift is extended 63 feet from the upraise; the formation is quartz, from which some ore is being extracted.

NORTH OCCIDENTAL—On the 500-foot level the north drift is advanced 98 feet. The formation is porphyry and ore, of which latter 18 tons, assaying \$40 per ton, has been extracted. On the 250-foot level the north drift is advanced 98 feet. The formation is porphyry and ore, of which latter 18 tons, assaying \$40 per ton, has been extracted. On the 250-foot level the north drift is extended 40 feet in quartz, from which some ore is extracted.

TUSCARORA DISTRICT.

Reports of Explorations and Workings at the Various Mines.

Tuscarora, Nev., January 12th .- The fellowing Superintendents' reports were filed

to-day:

Belle Isle—The south drift on the vein in the east crosscut, on the 250-foot level, is extended 14 feet.

Grand Prize—No. 1 winze on the 300-foot level has been sunk 9 feet; the ore continues good in the bottom. The north crosscut on the 400-foot level has been extended 29 feet; total, 75 feet.

North Commonwealth and Del Monte—Combination shaft: Steam has been gotten up in the new works, and everything moves nicely. The water in the shaft has been lowered 15 feet. Sinking will be resumed on the 12th inst.

North Belle Isle—The intermediate drift south below the 300-foot level is extended 5 feet. No. 1 winze below the 400-foot level has been extended 13 feet; total depth, 39 feet. The stopes above the 400-foot level are looking well. Good progress has been made with the Union mill.

Navajo—The crosscut from the south drift on the west vein of the 350-foot level is extended fifteen feet. The south drift from No. 4 crosscut on the same level is extended welve feet. The crosscut

west vein of the 350-foot level is extended fifteen reet. The south drift from No. 4 crosscut on the same level is extended twelve feet. The crosscut from the west vein on the 150-foot level is extended five feet. The stopes are looking better. The mill is running all right, though some time was lost during the week in cleaning the boilers.

NEVADA QUEEK—No. 2 cast crosscut on the 200 level has been advanced fourteen feet, cutting seams of spar carrying mineral. The north drift on the 450-foot level has been advanced ten feet, and is in much more favorable looking rock, which shows some sulphurets. The stopes are looking very well. Only a few miners are employed stoping, as most of the ore hauled to the concentrator is taken from the dumps, the ore houses being kept full in case of storms. The concentrating works are running steadily. The work for the week shows 87 per cent.

COMMONWEALTH—On the 100-foot level No.2 east crosscut from No. 1 south drift has been advanced 10 feet, all in vein matter. The intermediate drifts below the levels are being timbered. On the 150-foot level the upraise from No. 1 crosscut has been connected with the west crosscut from the 100-foot level, and is showing some low-grade ore. The timbering in the south and east lateral drifts is progressing well. No. 1 west crosscut is advanced 15 feet and is looking very favorable, having cut seams of ore. No. 2 west crosscut, running to connect with the east lateral winze, has been advanced 16 feet. This crosscut will have to be run 40 feet before reaching the bottom of the winze. The line crosscut has been advaned 12 feet, the rocks being the same as found in the east lateral drift above the 300-foot level. No. 1 west crosscut has been extended 20 feet, with no particular change in the formation; the gangway has been advanced 16 feet. COMMONWEALTH-On the 100-foot level No.2 east

MINING STOCKS.

Ending of a Dull and Unattractive Week.

William Fries, President of the Eureka Con. left for the East yesterday.

The assessment on North Gould & Curry will be delinquent in the Board on Saturday. The annual election of officers of the San Francisco Stock Exchange takes place to-morrow, and that of the Pacific Board on Wednes-

The Silver State says the Adelaide Copper Mining Company at Golconda sunk the shaft five feet last week. The prospect is very fa-vorable, the ore containing from 10 to 25 per cent copper, and from \$10 to \$40 in gold and silver.

Following is Superintendent Shockley's weekly report of operations at the Mount Di-

ablo:

Work was resumed in the mine on the morning of December 28th. The stope between the fifth and sixth levels shows three feet of \$60 ore in the west end. We have been driving a south crosscut from the intermediate between the fourth and fifth levels, near the No. 2 winze, and have cut a two-foot ledge of \$60 ore that looks promising. The main stope between these levels is giving the usual amount of ore. The west stope above the fourth level shows a little improvement. The east stope on the third level is giving a little \$40 ore. The intermediate stope above the east drift on the first level shows two feet of \$60 ore. The rest of the mine shows no change.

There has been a fair amount of trading during the past week. No news of any importance has been received during the week from the front, but the work done is generally of a very favorable character. The Justice mill is doing first-class work, and it is promised that bullion shipments will commence at an early date. In the Tascarora district the success achieved by the Nevada Queen concentrator has led to the projection of plans for similar machinery for

the Commonwealth, and which it is intended to erect at an early date. The news from the Quijotoa continues the same; milling is continued almost uninterruptedly, and a tair amount of bullion is being shipped to this city. Prices were steady in the 9:30 A. M. session yesterday. Ophir sold at \$6, Mexican \$3 85. Curry \$3 05, Best & Belcher \$6, Con. Cal. & Virginia \$9, Savage \$3 15, Chollar \$3 55, Potosi \$2 80, and Hale & Norcross \$5 25.

In the south-enders Alpha sold at \$2 60, Belcher \$5 25, Challenge \$5 25, Con. Imperial 85 cents, Crown Point \$6 12½, Yellow Jacket \$5 12½, and Seg. Belcher \$3 40. Sales were also made in Alta at \$2 80, Andes \$1 15, Benton \$5 75, Bullion \$1 50, Exchequer \$1 20, Justice \$2 45, Sierra Nevada \$3 50, Union \$3 05, Silver Hill 95 cents, and Utah \$1 50.

In the outsiders Grand Prize sold at 85 cents, Navajo \$1 50, Navada Queen \$2 90, Peer 40 cents, Peerless \$1 35, and Weldon 50 cents.

After the call business was lively, and the

After the call business was lively, and the market was very strong at the close.

Pacific Coast Blood-Horse Association A meeting of the Pacific Coast Blood-Horse Association was called on Friday afternoon to investigate certain charges against P. A. Finnigan, a member of the association; also, nigan, a member of the association; also, charges concerning a race run under the auspices of the association last Spring. The charges appeared in the Spirit of the Times. Mr. Finnigan was accused of being a partner with Schwartz & Co., bookmakers, and of starting a race in their interests in which Baldwin's Estrella was a favorite. Estrella was left at the post, and the paper charged that this was done intentionally.

The turf editor of the journal mentioned was requested to give the source of his informa-

requested to give the source of his information, and he stated that it was current rumor. Schwartz's books showed that the firm had lost \$490 on the race, and members of the firm stated that Finnigan had never been a member of the company or received any money from it whatever. The matter went over to the full Board for further investigation.

The Last Game of the Season

TO THE DEAF.—A person cured of Deafness and noises in the head of 23 years' standing by a simple remedy, will send a description of it first to any Person who applies to NICHOLSON, 177 MacDougall street, New York.

OH! MY HEAD!

Suffering of a New Jersey Senator-Dys-pepsia, Sick Headache - Ter-

rible Things.

When the stomach is torpid it soon becomes clogged with half-digested matters, the blood becomes vitated and foul; the other organs fail to act normally, and induces a train of symptoms, such as dyspepsia, sick headache, dizziness, drowsiness, adpitation of the heart, pain in the back, loss of appetite.

There are a few things that I believe in with all my heart, and it affords me pleasure to tell of one of them." The speaker was ex-Senator Albert Merritt, head of the large truit firm, 82 Park Place, N. Y., and the scene his office. "I was sick and feared I had become fated to endure the

had become fated to endure the

Tortures of Dyspepsia

and a dangerous affection of the kidneys. A relative said to me, 'Why don't you try Dr. Kennedy's Favorite Remedy, made at Rondout, N. Y.!' I did so. I grew steadily better. I could eat, digest, sleep and work with a clearer head, and the yellow color of my skin had given place to the tones that announce pure blood and every organ of the body in healthy action. Dr. Kennedy's Favorite Remedy is entitled to the credit of saving my life. If any one has a doubt about the truth of my statements let him write to me. I can give you the names and addresses of fifty persons who affirm, as I do, that 'Favorite Remedy' has been to them a help and a blessing in time of need." Mr. A. DeRevere, Tarrytown, N. Y., says: "For a long time I was troubled with severe attacks of dizziness and

Blind Sick Headache,

due to impure blood and a disordered state of the aystem. I was advised to try Dr. Kennedy's Favorite Remedy, of Rendout, N. Y. I did so and have been completely bured. It's the best thing I ever heard of for any disorder of that nature, and I have recommended it to many with like success." Mr Daniel Fitts, Taunton, Mass., says: "I recommend Dr. Kennedy's Favorite Remedy for dyspepsia and sick headache. I suitered for many years with these complaints, and was cured by Dr. Kennedy's

FAVORITE REMEDY.

SACRAMENTO COSSIP.

Only a Corporal's Guard Left at the State Capital.

PROSPECTS OF LEGISLATION

Diverse Views on the Question of Irrigation-Los Angeles, Stockton and Oakland Charters.

SACRAMENTO, January 12th.—Sacramento appeared deserted to-day. A stray Senator or two could be seen about the corridors of the Capitol or the Golden Eagle, and an occasional Assemblyman listlessly wandering about town.
A large number of members of both houses took advantage of the adjournment until Mon day to make a flying trip to the Bay last night, and the absent contingent was further increased this morning by departures on the down train. At the Capitol, Senators Moffitt, Goucher, Caminetti and McComas were the only members present in the Senate chamber. In the Assembly, Atherton, Young, Brierly, Damron and Holmes formed a Republican group, discussing the prospects of the minority

from the standpoint of ways and means.

Now that the Irrigation Committee has been determined upon by Speaker Howe, there promises to be a lively discussion upon measures brought before the House. Holmes of San Bernardino favors a conservative policy, and would prefer that existing laws should be and would prefer that existing laws should be made more effective rather than that new and radical changes should be made. He states that in his county practically all the water has been appropriated under the old Mexican customs, and it is in the development of a greater supply that his constituents are most interested. He favors the retention of the present law, but thinks that the new Constitution is faulty in preventing special legislation for the needs of the diverse interests of the different sections of the State, the requirements of the San Joaquin plains, the transtehachapi region, the bay counties, the foothill belt of the Sierras, and the irrigable section of the Sacramento valley clashing in many respects. Although conceding the benefit which would accrue from a system of reservoirs regulating storage and distribution of surplus waters, he would prefer to see the work undertaken by private parties rather than the State, considering the latter proposition as savoring too much of paternal government.

Wear of Kern takes a deep interest in the

than the State, considering the latter proposition as savoring too much of paternal government.

Wear of Kern takes a deep interest in the question, as representing a county almost entirely dependent upon irrigation. To the ALTA's correspondent he said: "I regard the irrigation question one of the most important to the people of this State. Coming, as I do from a district which has, in reality, been brought from a wild waste of desert by means of irrigation, and having resided there since the commencement of irrigation, and to some extent made a study of the matter, having viewed it in all its phases, I feel competent to give a fair opinion on the subject. The San Joaquin valley, and especially the portion of it embraced by Kern, without a complete system of irrigation would soon return to the condition in which it was twenty years ago. Our county, if I mistake not, has made more rapid strides in this direction than any in the State. We have hundreds of miles of ditches and a bountiful supply of water, if properly managed and not allowed to get into the hands of a few to the detriment of the many. I consider it a subject on which the Legislature should move with great caution, as a false step would cause a deplorable condition of affairs. I have not as yet been advised as to what legislation will be proposed, though from what I can hear some bills will be introduced bearing on the subject. In view of the great difficulty in handling the subject without injury to the small land-owners. consider the Wright bill, with some minor amendments (the amendments to cousist in district boundaries), the proper solution of the question. This certainly protects the interests of the small holders and guarantees the larger ones their rights. I hope, for the good of the farmers of the San Joaquin Valley, that the question will not be tampered with too much, for after years of effort we have succeeded in reaching a satisfactory fundamental principle, and having reached that point I think it impolitic to tamper with the matter, f

nominal figure to the agriculturist, claiming that a very moderate charge would suffice to pay the interest on the investment and pro-vide a sinking fund with which to meet the in-

The holding of school lands for speculative purposes will be brought up in the House by Shanahan of Shasta, as it is a subject in which his constituents are deeply interested. Under the present law speculators may file upon school lands, and by a system of abandonment and refling every six months with a modest and refiling every six months, with a modest biennial fee of \$5, hold their claims for an in definite period without other monetary consid-eration, and to the exclusion of the actual set-

The quarrel between Governor Waterman and George A. Knight still continues to form a theme of discussion at the Capital. It is hinted that all has not been told yet, and that a sequel of interesting disclosures will be published.

ished.

The only bill which has as yet achieved the distinction of becoming a law is that which was introduced in the Senate yesterday by Senator Wilson of San Francisco, passed under a suspension of the rules, transmitted to the Assembly, and passed in the lower house. It provides for the meeting of the Presidential electors in this city next Monday, in accordance with the requirements of the United States statutes. The last Legislature failed to make any provision for this very necessary purpose, and, were the result of the national election dependent upon the casting of the vote of the Presidential electors of California, very serious complications might have arisen.

ous complications might have arisen.

The bill providing for the payment of the funeral expenses of the late Governor Bartlett has passed to the second reading, and will be pushed to a final conclusion in advance of other legislation.

There has been something of a strife between There has been something of a strife between the delegations from the counties of Los Angeles, Alameda and San Joaquin, to see which should succeed in getting the charter resolutions for their respective county seats first passed. The honor will fall to Oakland, although there is one member in the Alameda delegation, Culver, of the First Ward of Oakland, who opposes the charter. The charter of Los Angeles will be considered subsequently, and Stockton takes third place.

Gevernor Waterman left to-day for Folsom to visit the State Prison.

AFLOAT AND ASHORE

A Captain Goes Insane-Arrival of the Steamer Arabic. It is said that a new schooner is to come out

from Salem, Mass., to engage in the halibut fishing off Cape Flattery. This vessel is ealled the Norton, and is owned by R. J. Phillips, a New England fisherman. She is about 94 tons register, and is one of the handsomest vessels

register, and is one of the handsomest vessels of her class. She left Salem on November 20th for Puget Sound, and, in all likelihood, will arrive there about April. She will bring twenty-four dories with her.

Preparations for the raising of the steam-schooner Leo, which was wrecked at Port Houghton Bay, Alaska, last November, have been begun. When the Anoon last arrived at Port Townsend it was reported that the Leo was lying quite easily, with only the smokestack above water.

The Pacific Mail steamer City of Peking will

SUPERIOR COURT SUITS.

Action Relating to the Use of a Name The Schooner Parallel Explosion.

ness for years, and that the use of it by Hel-

wig has injured their business.

The Hibernia Savings and Loan Society has sued John Molly and others to recover \$16.

exploded, totally destroying the vessel and cargo.

The explosion did considerable damage to property on shore, including a shop and motor to pump water by wave-power on Point Lobos, owned by the Wave-Power Company of San Francisco, which corporation now brings suit against S. B. Peterson, J. G. F. Winding, Christ Peterson, William M. Smith, P. C. M. Winding and Jacob Nelson, the owners of the Parallel.

FIRE COMMISSIONERS.

A Meeting Called to Consider Fire Exits in Public Places.

At a meeting of the Board of Fire Commissioners yesterday the resignation of Frank

Kerrington, extraman of Engine Company,

Chief Engineer Scannell recommended that

the Board investigate the condition of the fire exits at all public places of amusement. Presi-

exits at all public places of amusement. Frest-dent Edwards said that immediate action should be taken. On motion of Commissioner Newman, it was decided to call a meeting of the Fire Department Committee of the Board of Supervisors, Chief Engineer and Architect of the department and the Board to consider the matter. The meeting will be held at noon to-motrow.

The recommendation of the Chief was amended so as to include all places of public assemblage. Commissioner Mahony said that he believed there were churches in the city that are not supplied with the necessary fire exits. He was in favor of instructing the architect to examine into the condition of the fire exits, etc., at all places of public assemblage.

The Mortuary Report.

deaths in this city during the past week numbered 115 against 140 the corresponding

week last year. Included in the list of de-

cedents were twelve Mongolians.

Died under one year of age 12, and 20 were over sixty years of age, 3 being between the ages of eighty and ninety. There were 2 suicides, 8 casualties, and 21 died in public

institutions.

Deaths from phthisis numbered 27; pneumonia, 7; heart disease, 15; bronchitis and meningitis, 5 each; cerrhosis of the liver, inanition and cancer, 4 each; Bright's disease, 3, and diphtheria 1. There were no deaths from smallpox or scarlatina.

The diseases are classified as follows: Zymotic, 10; constitutional, 34; local, 51; developmental, 5; by violence, 10; and 5 unascertained causes.

A Wife-Deserter in Jail.

A story of gross immorality was brought to

light yesterday by the arrest of Philip Light on a charge of living in open cohabitation

with his niece, Anna Berlsohn. The arrest

was made at the instance of the prisoner's

wife, Rachel Light, who arrived from New

York last Saturday. Light married his wife in the city of Georgenburg, Russia, on June 1, 1868, and soon after removed with his wife and niece to New York. There he became engaged in the manufacture of clothing, and at

and at one time was said to be quite wealthy. About a year ago Light came to this city with his niece and has been conducting a second-hand clothing store at No. 243 Fifteenth street. Mrs. Light and her family of eight children are in destitute circumstances, although Light claims to have sent them considerable money.

Will Be Dismissed.

The third trial of Mrs. Louisa Guitterez, charged with attempting to extort money from Dr. McLean, was postponed for two

weeks by Judge Lawler yesterday. It is said the charge will probably be dismissed, as she has been tried twice and the jurors were un-able to agree upon a verdict. She has been released upon her own recognizance and the sureties on her bond exonerated.

An Alleged Robbery.

rested yesterday afternoon on a warrant sworn

out by George Salazar, charging him with rob

out by George Salazar, charging him with rob-bery. Salazar, who is a cigar dealer, claims that Anderson presented a \$5 Confederate note in payment for some cigars. When Salazar refused to take the note he says that Anderson placed a pistol to his head and made him count out \$4 50 in change.
