A Mighty Engine Moved by the Fluctu-

wave power motor, so long talked of has at last been finished, and proved a hair-brained scheme, but the projectors stuck to their plan, and seem now to be

bluff were broken and carried away no more than they ought, and an investigaless than fourteen times. When the tion of the courts is ordered. schooner Parallel went ashore, and her | Captain William Moore, who has been the cliff and fell across the chasm over it up to such an extent that nearly three months were consumed in blasting out the debris. Soon afterward another mass of stone, weighing 150 tons, fell and had to be removed. The motor, designed and built by E. T. Steen, is a very simple contrivance, and still is capable of exert-

ing a great power. Across a chasm in the rocks just north of Parallel Point a bridge of heavy timbers was built. Suspended from this is a huge fan or paddle of oak timbers, with the spreading portion downward. This is fastened to the bridge by immense hinges, which allow it, when in opera-

up out of reach of the waves when not in ered immediately. use. When a wave comes in the fan is thrown forward and forces the air out of the pump barrel in which the plunger works. On the wave receding the fan is will by its own action, reach all the ried out, causing a vacuum, and causes a quick rush of water into the suction has drawn up is sufficient to raise it to an ele-

vation of 350 feet above the tide level. Should this motor prove as successful as the projectors seem confident it will, several others will be built in the same neighborhood, and an immense reservoir built on the hill to contain the water.

This one motor, with its twelve-inch plunger, is capable of raising 12,000 cubic feet of water 350 feet high in every the water will be put are available. A thirty-six-inch pipe will be conducted to the city, and water will be supplied to all branches of industry where machinery is used. Bathing houses will also be supplied with salt water, and sewers flushed when it is necessary.

The first work performed will be begun in about ten days, and an eight-inch pipe is now being laid for the purpose.

The last mentioned pipe is for Adolph Sutro, and is to be utilized in sluicing away a large amount of drifting sand from the heights just back of the aquarum. This work is rendered necessary on the beach and retarding the work.

The immense fan of the motor gener-

#### SOLDIER'S HOME. The Work Will be Commenced in a Very Short Time.

San Vincente and Santa Monica ranchos, and have the same certified by the County that he will return here early in January, and will be accompanied by Gen. Negley, which looks like he means business. The abstract was ordered by Judge Van Dyke yesterday, and will be forwarded as soon as it can be made out.

Nature's Own True Laxative. The delicious flavor and healthy properties of sound, ripe fruit are well known, and seeing the need of an agreeable and effective laxative the California Fig Syrup Co., commenced a few years ago to manufacture a concentrated Syrup of Figs which has given such general satisfaction that it is rapidly superseding the bitter drastic liver medicines and cathartics hitherto in use. If costive or billous try it. For sale in 50 cents and \$1.00 bottles by B. Gutlerrez. The delicious flavor and healthy prop-

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain relieves wind, regulates the bowels, and is the best known remedy for diarrhoæ, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing yrup" and take no other kind.
