THE EMPORIUM'S HOUSEWARMING.

A Big Battalion of Police Kept the Crowd on the Move.

BABIES WERE CHECKED JUST FOR FUN.

A Newsy Struck a Windfall by Being the First to Enter the Store.

PRESENTED WITH AN ENTIRE NEW OUTFIT.

To-Morrow the Business Career Begins and San Francisco Possesses the First Store in the Land.

For an hour before they were opened yesterday afternoon the crowd gathered and increased about the doors of the Emporium, until it became a crush not a little alarming. And when they were thrown back the first individual to enter was a typical newsy. He swaggered down the vide aisle in the van of the crowd with the air of a man escorting his guests over his own possessions.

Manager Harper was standing at attention in the rotunda when the boy came forward, leading the charge. He recognized the arab as an omen-symbol of good luck that was being thrust upon him. It was an inspiration, and he grabbed the ragged little urchin as something that must not be allowed to get away. The boy rebelled as an American citizen who has rights that no manager of an Emporium may curtail-for he thought he was being arrested.

But on the contrary, as the first of the invited public to enter the big store Manager Harper saw in the lad his especial guest of honor. He escorted him over the building, showed him the wonders till he was sated with them, then he passed him along from one head of a department to another with instructions to allow him to want for nothing.

Two hours after that a free delivery car-

riage, wearing the coat of arms of the Emporium, drove up to the door of Mrs. Donovan's humble home, at 202 Fifth street, and three ladies, Mrs. Harper, Mrs. Howell and Mrs. Gareo, stepped out. With them was an elegantly dressed young man of 10 years, whom the ladies introduced to Mrs. Donovan as her son—late a street arab of the most pronounced type. Mrs. Donovan held up her two hands in

amazement and then turued him round round, almost refusing to believe.

side in the archives of the great store.

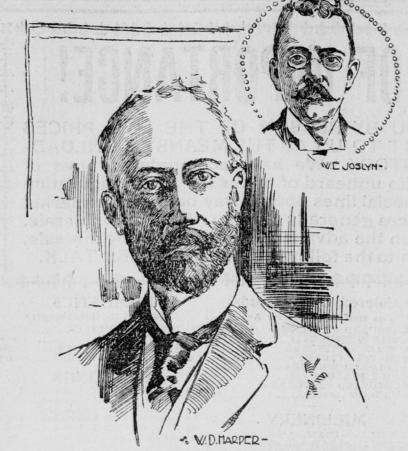

All this took some hours longer than it

takes to relate it, and in the meantime the

populace, released, had been trooping through the streets and avenues of the great building; the Emporium orchestra,

responding to the wave of John Mar-quardt's baton, had been filling the place with music; department clerks had been answering 7,000,000 or 8,000,000 ques-

confusion from department to department,

W. D. Harper, General Manager, and W. E. Joslyn, Advertising Manager and Secretary to the Board of Directors of the Emporium.

Bugene Donovan, the Newsboy Who Struck a Windfall by Being the First to Enter the Big Store.

The Emporium or chestra will give three concerts a week—Tuesday, Thursday and Saturday evenings—the year round. It will be assisted by Mrs. Alexandra Breitschuck-Marquardt, harp soloist.

The affairs of the Emporium are under the direction of a board of managers composed of Messrs. Cole, M. S. Feder, M. Greenebaum, A. Gruninger, with W. E. Joslyn, an energetic young newspaper man, its secretary. Mr. Joslyn is also the advertising manager.

The president of the company is A. Feist and the general manager is W. D. Harper.

evening reception.
At 7 o'clock somebody touched a button At 7 o'clock somebody touched a button and 10,000 lamps set the big building ablaze, bringing into the broad light every remote corner. The band began to play again and the throng to fill up the aisles. It is estimated that 50,000 people passed through the building last night. No time could be allowed to stop and examine. The only way the streets were kept free was to keep the crowd moving. Sergeants Shay, Conboy and Helms, with 110 men, were detailed to the duty.

During the evening a number of flashlight photographs were taken of the crowds in the rotunda and the different departments.

departments. It was not the intention of the manage

that any business should be done resterday, but it was decided later that the refreshment department about the bandstand should be opened for the re-freshment of the visitors, and a big run was made upon them was made upon them.
One of the grandest features of the open-

The Tired Mother Leaves Her Baby and Takes Away a Claim (heck.

ing display are the great show-windows, containing to-day between \$40,000 and \$50,000 worth of choice merchandise.

The feature which attracts the most attention is the reproduction, with appropriate scenery and carefully modeled wax figures, of the famous painting, 'The Duel of the Amazons."

of the Amazons."
This striking scene has been ingeniously turned to advantage to advertise the famous "R. and G." corsets, with which the fair swordswomen are clothed. Nothing like it in window display has ever been shown before in this City. The companion picture, entitled "The Reconcilia-

lyn, "we won't do a thing." In other words, it is with such that that dream of the woman shopper, the bargain counter,

the woman shopper, the bargain counter, is to be inaugurated in the big store on the very first day.

To-morrow, then, will be put in actual operation all the resources of the finest store on earth. To-morrow women may go here, leaving their babies meanwhile in the care of experienced nurses in the nursery, taking a check that will enable them to be singled out in a crowd upon an instant's notice, no matter how much they all kinds is in use in The Emporium building. This quantity is nearly or quite three times as much as is in use in any instant's notice, no matter how much they other building in San Francisco. F. N. Woods & Co. of 51 and 53 First street had the contract for this portion of the work as it could not have been handled by a house may resemble the other babies. To-morrow wives may begin to form the habit of meeting their husbands at the Emmeeting their husbands at the Emporium for lunch—a very elegant lunch—or for consulting upon any of the purchases for the household. To-morrow men and women may go to The Emporium if they have a letter to write and find elegant stationery free of cost and equally elegant accommodations for writing. To-morrow the public may find at The Emporium for the first time a free telephone at its service.

In a word San Francisco will find itself in possession to-morrow of a department of smaller magnitude than theirs. They are heavy importers.

The plates in the front windows are among the largest in the City. The firm supplied glass for the windows, the show cases, mirrors, etc., and the glass in the dome. dome.

in possession to morrow of a department store that is in advance of anything in the world in that line. Under this roof every want may be supplied. There are sixtyone great stores in one, all arranged with
the greatest convenience, equipped with
every conceivable appliance for the speedy
conduct of business without confusion.
Forty miles of pneumatic tubes concentrate the money changing of the wast estrate the money changing of the vast establishment in a central well, where nine young women receive and flash back the little cylinders without noise or loss of time. Two hundred and ten miles of electric wires carry cars, light and power to every part of the building. In a word,

tims of the great crush that, happily, did not put in an appearance. Secretary Joslyn and the board of directors were everywhere, receiving congratulations from everybody. It was an epoch day in San Francisco.

At 5 o'clock the stream of people was checked at the doors and began to flow backward until the big place was empty of guests. For it was arranged that it should be closed, and the clerks and managers and all hands should have a rest and appear timely to make ready for the evening reception.

At 7 o'clock somebody touched a button.

At 7 o'clock somebody touched a button.

At 7 o'clock somebody touched a button. due to the people who furnished the sinews of war. I of course refer to Mrs. Abbie M. Parrott and her very able adviser, C. de Guigne. To them, gentlemen, should be given the entire credit. Mrs. Parrott has invested a vast fortune with which, a kind providence her ordered. which a kind providence has endowed her for the advancement of the interests of our City and State, and in a time which

THE EMPORIUM BUILDING.

must be considered the very darkest com-mercial epoch which we have ever had on this coast."

THE ELECTRIC AND MACHINERY PLANT THE LARGEST WEST OF CHICAGO.

One of the most interesting features bout the building is the machinery plant. The magnitude of the building makes it necessary for a vast amount of machinery to be used, and in consequence an immense space is devoted to this particular feature. The steam machinery was manufactured and installed by the Union Iron Works of this City, the well-known builders of warships, and the climax of whose success in this line was reached in the record recently made by the Oregon, the fastest ship of its class in the world. the fastest snip of its class in the world.

The machinery for the building was all built from special designs made by the Union Iron Works to suit the unusual requirements of this vast structure. There was four angines amployed wir three was

Iwo Views of the Cherub in the Base. ment That Turned On the Lights.

This style of boiler is recognized by experts as the most economical yet designed. The economy is further increased by the use of the Howden system of forced combustion whereby superheated air is used instead of the cold air as is customary.

The electric plant was installed in accordance with designs made by A. E. Brooke Ridley, who holds the Pacific Coast agency of the Siemens-Halske Electric Company of Chicago. This plant consists of six direct connected units of 100 kilowats capacity and two of 35-kilowats capacity. These are arranged to run in series in pairs to supply the elevators at 220 volts or in multiple at 110 volts for lightning service.

The switch-board is constructed of marble and is of the panel type. It is forty

Rev. Henry M. Covert of Brooklyn Surprised by

by the "overhead system," which is the most approved method. The steam is LOS ANGELES, CAL., May 23 .- A surcarried from the basement directly to the prising sequel to the elopement of Rev. Henry M. Covert and Mrs. Emma Springer, a wealthy woman of Brooklyn, top story, and thence flows down through the several radiators in the various rooms to the boiler, thus noiselessly and certainly the boller, thus noiselessly and certainly heating the whole building.

The George H. Tay Company were selected to execute this important work, because of their high reputation and great experience in heating the large buildings of the State, such as the French Hospital, the State Normal School, etc. N. Y., which occurred in March, came to light here to-day. Covert and his were are now living together again in this city. Between ten and twelve acres of glass of

Covert and Mrs. Springer had come directly to Los Angeles from Brooklyn, he passing here as the woman's brother. Mrs. Springer had formerly lived in Los Angeles and had friends here, but for good reasons did not hunt them up. She had considerable money, and after consulting with "brother," who was greatly interested in all her financial affairs, concluded to build a residence. The two were good reasons did not hunt them up. She seen together very frequently and became well known, by sight at least, among real estate men and builders. They finally selected a lot on Lovelace avenue, in the western part of the city, and there a handsome \$7000 residence is approaching comdition to the retaining walls, which are constructed of concrete, there are a large number of concrete piers which sustain the weight of the body of the building. pletion.

Mrs. Springer, had hoped to begin life anew in company with the man she hoped to marry as soon as certain legal obstacles were swept away. She sent for a lot of elegant furniture, which had adorned her aristocratic home in Brooklyn. That furniture has arrived and is in a warehouse

the weight of the body of the building. Some of these piers are twenty-four feet square. First-class work was imperative in this portion of the structure, and George Goodman of 307 Montgomery street, who had the contract for all the concrete work about the building, executed a splendid job in every respect. He also put in the concrete floor in the basement and laid the cement walks on the streets, both in the front and in the rear of the building. awaiting the completion of the residence. Last Monday a cloud spread over the horizon and in the twinkling of an eye Mrs. Springer's hopes had vanished. She and Mr. Covert drove out in a carriage to the Lovelace-avenue mansion. They sat at the building and discussing plans, and turned to Mr. Covert, when she was at-Magnificent Illuminating System tracted by a smothered exclamation. She looked around and saw the gentleman in the grasp of an excited female, whom she recognized as Mrs. Covert. Then ensued a scene that caused the workmen on the building to stand agape.

Installation Was in Accordance With The strange woman grabbed Covert by the lappels of his coat and shook him. at Mrs. Springer. C., May 23 .- The at the Clarendon on Hill street, where Mrs. Covert took apartments when she reached the city. The only communication Mrs. Springer has had from Covert has been a little note, accompanying a \$250 diamond ring and chatelaine chain, which he sent back to Mrs. Springer. In the note he told her that he was exceedingly sorry the trouble had occurred, but did not know what to do.

LEFT BOARD BILLS UNPAID. A San Francisco Youth Arrested at Redondo Beach.

LOS ANGELES, CAL., May . 23 .- E. J. McNamara was arrested at Redondo Beach to-day on a warrant charging him Hotel Lille, on South Hill street, of a symptoms to be benefited. Kindly send stopped at the hotel under the name of (Signed) E. J. Haltin. He gradually found his funds running low, so one evening he an-ticipated the landlord by packing his effects and leaving the city. The latter went to the District Attorney and swore to the complaint. After a short search, Deputy Constable Mugnemi learned that McNamara was stopping at Redondo as E. Russ and arrested him to-day.

McNamara wired to his father in San Francisco, who, he said, was a shoe-dealer on Market street. The father telegraphed in reply that his son could get out of the trouble as he had gotten into it. Several similar charges are said to be held against

FALLS INTO BOILING LARD Four . Year - Old Howard Lamberton

LOS ANGELES, CAL., May 3 .- While playing in the rear of the City Bakery, four-year-old Howard Lamberton, the son

of the manager, fell into a tub of boiling lard and was fatally burned. The tub was sunk to a level with the ground and was AT LOS ANGELES

such to a level with the ground and was used for cooking doughnuts. The child ventured too near, stumbled and fell into the boiling grease. Mr. Lamberton heard the little fellow's cries and hurried to the place. He reached into the boiling lard and rescued the boy, his hands being badly scalded. The child's injuries were fatal and he died several hours afterward.

MAY ANCHUR AT SANTA CRUZ. Warships Likely to Be Present During the Venetian Fete.

The switch-board is constructed of marble and is of the panel type. It is forty feet in length and is a magnificent piece of workmanship. The instruments that are installed are of the highest quality and finish and its artistic symmetry is noteworthy. The switch-board is supplied with every modern controlling and registering device and the switching arrangements are such that the elevators can be run from the same dynamos as the lights or independently on different dynamos, at will. The light installation consists of 7000 incandescent and 400 arc lights. The latter are the Manhattan 100-hour lamps and are the very iatest and best in use.

There are fifteen electric elevators in use in the building, all operated by the electric plant, also about 100 motors, large and small, that are used for various purposes about the building, all operated by the electric plant, also about 500 motors, large and small, that are used for various purposes about the building. The plant is the largest one ever installed in any single building west of Chicago, and but one plant in a building in the latter city, that one in the Emporium building.
