Whenever you see an Arrow Think of Coca-Cola

Whenever, wherever, however you see an arrow, let it point the way to a soda fountain, and a glass of the beverage that is so delicious and so popular that it and even its advertising are constant inspiration for imitators.

Are you hot? — Coca-Cola is cooling.
Are you tired? — Coca-Cola relieves fatigue.
Are you thirsty? — Coca-Cola is thirst-quenching.

Do you crave something just to tickle your palate—not too sweet, but alive with vim and go? — Coca-Cola is delicious.

Just Think

Of all the good qualities you would like to find combined in your furniture, you want it to be artistic in design, first to be strong and durable. You want it to be light weight. You want it to be artistic in design. You want it to be sanitary. You want something not affected by vapors, something you can use the loss on as if it were not there.

India Reed

is the only furniture made that combines all these qualities. It is entirely free from paint or varnish, and the outer surface is protected by a hard natural enamel, impervious to water. India Reed is a soft, non-burned, brown, as free from artificial coloring as when it grew in its native jungles. Fashioned by skilled craftsmen in our own sawmills from trees that will please the fancy of the most fastidious, and the largest stock west of Chicago from which to choose, at prices from \$1.15 up. Repair work and special designs to order.
