THE FOUR STRIKES.

All Quiet on the Street Car Lines.

THE MESSENGER BOYS WIN.

The Railroad Lines Object to Exhibiting Their Balance Sheets.

Comparative quiet prevailed on the boycotted street railroads yesterday, though the persuasion committees were at work at every crossing along the line of the roads. No other demonstration was made by the strikers.

Before Labor Commissioner Enos some testimony was taken as to wages and hours of labor on the Geary-street railroad, but when the Secretary of the company was asked regarding the investment and income of the road his counsel objected to his answering, and the Commissioner gave him until this morning to consider the law on the subject.

The District Telegraph companies have met the striking messenger boys more than half way, the strike has been declared off, and the boys will go back to work this morning.

THE ASSESSORSHIP.

Frequent Fluctuations, but No Change Yesterday.

The recount for Assessor was resumed yesterday morning with the Sixth precinct of the Thirty-sixth district, which showed a gain of one for Nealon. The result was as follows: Nealon 30, Daly 43, Siebe 79, Perkins 4.

When the returns of the Seventh precinct, same district, were taken up, the counsel for Siebe objected to the counting of the ballots on the ground that they were not the ballots which had been cast on election day. Many of those before the Court, the counsel claimed, bore two different numbers, while the initial signatures of the Inspectors perceptibly varied in style and bore the appearance of having been forged.

THE LOST WHALER.

Evidence of the Heroic Hackman.

LIFE-SAVING CREW'S WORK.

Story of the Rescue and Care of the Shipwrecked Sailors.

The taking of evidence yesterday as to circumstances attending the wreck of the whaler Atlantic was resumed. Major Blakeney desires it to be made public that it proved of great assistance to the conduct of the inquiry if the wrecked seamen and the persons who were in the hack would attend at his office to-day between 10 A. M. and 3 P. M.

PERU.

The Country's Ancient and Modern Inhabitants.

Rev. Mr. Thompson delivered a lecture last evening before the Young Men's Christian Association, choosing as a subject "Peru, Its Past and Present." The first part of the discourse was taken up in exhibiting relics which had been excavated. Old metal vessels, woolen cloths, embroidered cloths, baskets, etc., were shown which looked entirely new, but which the speaker declared had been in the ground for hundreds of years. He stated that mummies had also been found in a perfect state of preservation, and along side of them various implements. A work-basket was found by the side of a woman and mechanical tools beside another form, as though to indicate the pursuit engaged in during life. War clubs were also found. All these things showed that the ancient Peruvians were akin to the Egyptians in belief.

VITIATED BLOOD,

Scrofulous, Inherited and Contagious Humors Cured by Cuticura.

THROUGH THE MEDIUM OF ONE OF your books received through Mr. Frank T. Wray, druggist, Apollo, Pa., I became acquainted with your CUTICURA REMEDIES, and take this opportunity to testify to you that their use has permanently cured me of one of the worst cases of blood poisoning, in connection with erysipelas, that I have ever seen, and this after having been pronounced incurable by some of the best physicians in our county. I take great pleasure in forwarding to you this testimonial, unsolicited as it is by you, in order that others suffering from similar maladies may be encouraged to give your CUTICURA REMEDIES a trial.
