to Pay Him Their Respects.

Finishing Touches to His . Annual Message.

Senator Quay and with Speaker Hender-son the President was in conference for half an hour or more. The former did not hesitate to express to the President his opposition to any tariff revision, either at the approaching short session of Congress or in the next Congress. He expects to press in the Senate this winter the territorial statehood bills and is very optimistic as to the result. By agreement the statehood bills will be made the unfinished business of the Senate soon after the session begins the session begins.

The President conferred with Speaker Henderson about the status of legislation in the House during the short session, but the Speaker declined to enter into any details of the conference. Cannon had only a brief interview with

the President, during which they dis-cussed no public questions.

It is the purpose of the President to talk with some of the Republican Congressional leaders concerning his attitude and their attitude on trusts and the tariff. Discussion of the latter subject, it is understood, will be with special reference to the reciprocity question. Senator Allison and Representative Cannon later in the day had a conference with the Presi-

Nervous Prostration-

Faint Spells.

Dr. Miles' Nervine Saved My Life.

There is great danger in a run down condition. Overwork, mental strain, the cares and worries of business and the home, all have a deleterious effect upon the nerves, which in their devitalized condition readily fall prey to the attacks of disease. Aside from the danger there is no condition attended by so many disagreeable symptoms; such as loss of appetite, indigestion or nervous dyspepsia, headache, tired feeling and loss of ambition together with the agony of sleepless nights spent in tossing restlessly about, only to rise exhausted in the morning. Dr. Miles' Nervine is a true nerve tonic which, by strengthening the nerves, restores health and appetite and brings sweet sleep. "For six years I suffered almost constantly

"For six years I suffered almost constantly from a complication of troubles which culminated in complication of troubles which culminated in complication of troubles which culminated in complete nervous prostration. I had no appetite, I could not sleep, I suffered from indigestion and nervousness. As is so often the case in nervous prostration I frequently had weak, fainting spells. Doctors did not help me. They said my blood was very poor, and I know my face was always very pale. The very first bottle of Dr. Miles Nervine I took gave me noticeable relief and I felt stronger than I had in years. My neighbors in Puyallup, Wash., where I then lived will testify to this. I also used some of Dr. Miles' Restorative Tonic and Anti-Pain Pills. I believe the Dr. Miles Remedies saved my life."—Mrs. J. C. Benedict, Tucker, Utah.

The board ordered the City Attorney to be furnished an abstract of title to lands adjacent to Twenty-sixth and Cilpper streets, where Gray Bros. rock crusher is located, so that suit may be brought against the firm or any other parties who may be responsible for cutting the streets in the vicinity below the official grade.

George T. Wetmore denied that his blasting or ruck crushing plant is a nuisance, saying that no complaint had ever been made against it. John Kelso, a property owner on Telegraph Hill, said it was necessary to have blasting in this city for concrete work and that if it were stopped the cost of rock would be increased, as it would have to be brought for the City Engineer and to pay the value of the property of any one who desired to sell or had been damaged by blasting. Ames said the resolution would put a stop to blasting, raise the price of building material 100 per cent and throw 500 and 500 mills.

Kennedy, alias "Yellow"; John Courtney, alias "Leadville Jimmie," and William Henderson. The three last named are awaiting trial for murder. "Kid" Gouch-Henderson turned states evidence and assisted the prosecution in the conviction of both Woods and Kauffman.

So-Called Weakness That condition commonly known as "weakness" is merely a symptom of chronic infiammation in the prostate giand. It is not a weakness at all, though in time it brings on general debility through its depressing influence upon the mind of the sufferer. I treat for the infiammation only and use a local process entirely, and in years I have not failed to effect a permanent cure.

Winter Eczema

OR TETTER Is one of the many varieties of that torbers through the summer and breaks out in winter. The head, feet and hands are the parts most often attacked, though it sometimes appears on other parts of the body, the skin hardens, cracks open and bleeds, while the itching and burning is at times almost unbearable. Scratching only makes it worse, sores and scabs forming where the skin is broken.

In this form of Eczema brownish white crusts sometin form which scale off SKIN CRACKS in fine particles, leaving the skin raw and inflamed. It is

especially painful and severe when confined to the hands, which often become so badly affected that the sufferer is unable to perform the lightest work. This, like all other types of Eczema, is due to acid poisons in the blood and not to local causes. The trouble is more than skin causes. The trouble is more than skin deep, and washes, soaps, powders and salves nor anything else applied to the surface can possibly do more than soothe the burning and itching or relieve temporarily the inflammation and pain.

It is the acids thrown off by the blood

and which are forcing their way through the pores that cause the skin to harden, crack and bleed, and produce the irrita-

tion and soreness. SSS s. S. neutralizes these acid poisons and cleauses the blood of all irritating substances and humors

and does it promptly and effectually.
S. S. S. purifies and invigorates the thin acid blood, and builds up the entire system; then the unsightly eruption and sores heal, the skin becomes smooth and soft, and all signs of the Eczema disappear.
