HENLEY'S EXPLANATION.	1
This Is Not a Good Year for the	1
Democrats.	-
Barclay Henley, who was defeated by D. J. Murphy for the District Attorney-	
ship, took the outcome of the election in	1
so far as it related to himself in a philo- sophical manner. He attributed his de-	11
feat to several causes.	1
"First and most important of all," said	1

THE ASSEMBLY.

Now that the political complexion of the next Legislature is fin-

ally determined public attention is turned to the measures and the

men that will dominate the proceedings of the coming session of Cali-fornia's law-making body. At the present moment interest is chiefly

centered in the subject of who will be chosen Speaker of the As-

sembly. The most prominent aspirant for the position, which is rightly considered one of the first importance, is Howard E. Wright

of Berkeley. It seems scarcely probable that there will be any defi-nite opposition to Mr. Wright's candidacy, as his record as a legis-lator is irreproachable and his ability to discharge the duties of the

important position unquestioned. As a member of the last Assembly he identified himself in behalf of every measure beneficial to the people of the State. He was the author of the university tax bill

which made possible the great progress that now marks the life of the greatest educational institution in the West. It was his motion,

made on the floor of the Assembly, that caused the now famous telegrams in the coyote scalp bill scandal to be read. That the citizens of Mr. Wright's own district appreciate his merits is made plain by the fact that he was re-elected by a ma-

jority of more than eleven hundred votes over his opponent.
