THE OTHER BID

Alexander Millar of Boston, secretary and assistant comptroller of the Union ic road, said this morning that he ad no knowledge of any competing bid that would be offered against that of the

organization committee.
"There may be some other bids coming said Mr. Millar, "but if there are l know nothing whatever about them. Mr. Cornish, the master in chancery, who is to auction off the road, is the only man who knows just how many bids are to be made, and I know that he will not discourt, and it would not be just the proper thing for him to do."

While Mr. Millar disclaimed all knowl-

edge regarding the prospective rivals to the reorganization committee for the prospective rivals to the reorganization committee for the possession of the Union Pacific, it was evident, from his manner, that he was quite sure that the The Retiring General's Grim Escort committee would have no competitors. IN THE FUTURE

Regarding the future of the road after it has passed into the hands of the reorganization committee, Mr. Millar said: "The actual turning over of the property to the purchaser will be at some time in the future, depending very for the purchaser who buys the road at 11 oclock to assume control at noon. It will be simply a matter of convenience for the purchaser. I have known instances where roads have been bought by reorganization committees, and these committees having not been prepared the instant, the receivers have been allowed to run the road for two or three months, of course, under the direction of the owners. Then, when the purchashad most all things ready they took hold and managed the property them-

"Now, if the reorganization commit tee gets this road." and Mr. Miller smiled a contented smile, "that is what will do. The receivers will handle the road until the committee, if the committee be the purchaser," and again Mr. Millar smiled happily, "is ready to assume formal control of the road.'

All of the receivers who are here, and the other members of the reorganiza-tion committee, repeated substantially the interview of Mr. Millar.

WILL COME OFF KANSAS CITY, Mo., Oct. 31 .- Gen Louis Fitzgerald of New York, attorney for the trustees of the reorganization committee of the Union Pacific; Secre tary Keeck and Attorneys Rossington and C. B. Smith of Topeka, representing the same interests, left late last night for Omaha to be present at the sale of the road.

Mr. Rossington said before leaving "I do not know whether the sale will come off Monday or not, but I can see no reason why it should not. We shall be there to represent the reorganization committee and it is my opinion that the road will be sold. There has been considerable fuss and talk about this sale of the Union Pacific, but really there has been really a great deal of smoke and very little fire. I do not know of any one who is planning to defraud the government.'

A LATE OFFER LONDON, Oct. 31.-The firm of Coates. Associated Press Special Wire. LONDON, Oct. 31. - Herman Liebes of the North American Commercial company, and one of the lessees of the Pribyalong the Utah line to report the first loff islands, has made a statement in refutation of the case put forward by Mr. Chamberlain, secretary of state for the colonies, in his recent dispatch to Secretary Sherman. Mr. Liebes says in part:

"There can be no doubt whatever that the Pribyloff islands are legitimately F. "What is desired by America and the essees of the Pribyloff islands is that all parties interested, both in land and ocean sealing, without a moment's loss of time, confer together with the view of considering whether or not some arrangement cannot be made by which, under terms fair and equitable to all parties, the herd may be protected. I do not, myself, believe that any solution can be found which does not include as one of its terms the absolute prohibition of all pelagic sealing. This ought not to be a difficult matter to arrange, having regard to what I assert to be fact, viz., that pelagic sealing is not and cannot be under present conditions, profitable. Make Things Easy for Murderers in Missouri

over four years.

KANSAS CITY, Mo., Oct. 31.-For the second Sunday in succession the criminal court room of Kansas City was made the scene of the ending of a sensational murder trial. Today the jury in the case of Dr. Jefferson D. Goddard, for the killing of Frederick J. Jackson. with whose wife it was alleged God-dard had been intimate, reported for the fifth time that they were unable to agree upon a verdict and were discharged.

A week ago, in the same room, at about the same time, a jury had acquitted John Schlegel for killing Dr. A. L. Bercriminal relations with the prisoner's wife. Those cases have been the most sensational murder trials that Kansas City courts have had to deal with for years.

The Goddard case was given to the jury late Friday night last, after an exciting trial. Five times since then they sent for Judge Longan and reported that they were unable to agree upon a verdict. Judge Longan was determined, however, that they should secure a finding, and each time, after administering a severe lecture, sent them back to deliberate.

Today, after having taken nearly forty ballots, they again emphasized their inability to agree and Judge Longan discharged them. The last ballot It is expected that a new trial will fol low at an early date.

This great bore is two miles long, piercing the main chain of the Rocky mountains, and cost \$1,250,000. A gang of men was put to work immediately after the passage of the last train tearing up the track connection with the tunnel.

All trains of the Colorado Midland will hereafter go over Hagerman pass. The tunnel company refused to accept the offer of the reorganized Colorado Midland Railway company and the latter consequently rebuilt the high line over Hagerman pass.
