Thirty Years Ago. SAN FRANCISCO, Dec. 25 .- The Cliff found for three hours. The other train house was burned tonight, and for a time Adolph Sutro's big baths, recently

completed at a cost of \$500,000, were threatened. There were no means of fighting the fire, the nearest fire engine being about A Cold Blooded Murder in a Missour our miles away. The fire commenced at about 8:30 o'clock, and in an hour the

Cliff house was destroyed. The Cliff house was a a world-famous resort, as it overlooks the seal rocks and that he wanted to "get a man." He is part of the possessions of Adolph Sutro, San Francisco's mayor-elect. The buildings of the Cliff house were frame structures, and were used as restaurants, saloons and curio shops. In addition there were wide balconies, from which the seal rocks could be viewed.

THE BATHS IN DANGER. About 100 feet to the north are the new salt water baths, and connecting the two buildings was a row of sheds and fences.

The baths are immense frame structures, capable of holding 20,000 people, and are the largest in the world. They were in course of construction for three years, and a few months ago were opened to the public.
On the heights above the Cliff

house is Sutro's private residence and surrounded by magnificent grounds, the latter of which are open constantly as a park to the public. The greatest fear was for the baths.

ENGINES FROM THE CITY. Fire engines were sent from the city and arrived in time to check the spread of the fire.

The Cliff house buildings were erected about 30 years ago and no visitor ever went away from San Francisco without were sentenced to San Quentin.

CHRISTMAS LETTER.

The Oregon Executive Refers to Tariff, Fin appea and National Affairs Generally.

PORTLAND, Ore., Dec. 25 -Governor Pennoyer remembered President Cleveland today by sending him the following

letter: Christmas has again visited our stricken land with its prostrated industries and its idle throngs, willing but unable to work and unwillingly forced to beg or suffer. Your panacea—a change in the Sherman law and the tariff—has been administered, but there is no change in the sad condition of our unfortunate country. After two years of ruinous delay and mismanagement. you have, thank heaven, at last discovered the real trouble, although you have not proposed the proper remedy. As you now concede, the country peeds more money but it does not want the stuff you proffer. It needs gold and silver money with which to pay debts; and it does not want bank rags with which it cannot pay debts.

Sixty years ago the Democratic party had a president who defied the banks in the interest of the people. Has it now a president who defies the people in the interest of the banks? All the tradi-tions of the party which elected you are for gold and silver money and against bank currency. Do you aspire to fur-nish an example of treason to the cause entrusted to your care which will be without any parallel, except one, in all

the annals of American history?
Your party in both houses favors the restoration of silver as standard money; the people, actually suffering from the existing prostration of business, favor it; and will you not stand with them in overturning the monometallic policy of the British monied oligarchy which is "Your favor of the 7th instant sug-gesting that my friends be permitted to condition of a subjugated province and our hitherto free people to a condition

of financial serfdom? Always remembering the unemployed multitudes all over our broad land, I pray that God may give you light and strength to do the right.

He added that the ultimate effect of the war would be to advance the price of sugar from 3 to 6 per cent per pound, thus making the public bear the burden. In levying duties Spain arranges countries in two columns. The first column includes those who have not entered into eatisfactory treaty arrangement with Spain. Until recently Brazil was the only country on a thing. EFFECT OF SPAIN'S ACT. The immediate effect of Spain's ac-PENNOYER WRITES CLEVELAND A tion has already proved disastrons to the American trade in flour and this trade has passed almost exclusively into the hands of Canada. Under the old reciprocity arrangement with Spain. American flour was shipped to Cuba in great quantities. But when the United States tariff raised the duty on Cuban sugar, Spain responded by raising the duty on American flour. The duty on flour is \$4 75, in the first column, while

the "second column" is \$4.

As Canada is in the second column, she enjoys an advantage of 75 cents a barrel on flour, and this has proved ample to allow Canada to wrest the Cuban flour trade away from the United States. It is understood from authoritative sources that a question has been raised as to the right of the president to issue a retaliatory proclamation against Spain, such as Secretary Gresham has threatened. This proclamation, if made, would be under the law of 1890, which authorizes retaliation against countries making unjust discriminations against the United States, but Spain claims she is making unjust discriminations against the United States, but Spain claims she dolph Churchill is sinking. is making no unjust discriminations if she arranges her tariff in two columns, according to whether countries are friendly or unfriendly to her and leaves the countries to choose their own place. The recent American tariff putting sugar on the free list had the effect of placing this country in Spain's first column, without any international discrimination on her part. Under these two Chinese ambassadors recently circumstances it is urged that Secretary appointed. Gresham had no authority to invoke the

retaliatory law of 1890. The contending views are now being urged between the minister and the members of the Spanish cabinet, and

CLEVELAND'S CHRISTMAS TREE. How Inmates of the White House Spent

Washington, Dec. 25 —The president and members of the cabinet celebrated Christmas in the old-fashioned way, making it essentially a family affair. At the White House a Christmas tree was set in the library-the first the

own. Mrs. Cleveland herself added the finishing touches to the tree which, while not of great proportions, was beautifully trimmed and decorated with tiny parti-colored electric lamps in place of the old time wax candles. Until noon the express wagons and messen-gers came laden to the White House.

Every one got a fat turkey, and to his personal servants the president gave substantial gifts of money. Mrs. Cleveland also had a pretty little present for each of the employees. She, herself, received many Christmas presents, the president's tokens being very beautiful. Reported Conspiracy in Hawaii
