STEAMSHIP AGREEMENT NOT YET MADE PUBLIC

Steam Packet Company Still Remains Reticent.

BERLIN, March 27.-At the annual stockholders' meeting of the Hamburg-American Steam Packet Company, held to-day, Gugtav Tietgens, president of the line, was asked for particulars of the re-cent steamship agreement. Herr Tiet-gens said these particulars would be given at an extraordinary meeting of the stock-holders to be called later. He could only say that the objects of the agreement were to create community of interests, to demarcate the fields of operations and to secure uniform traffic measures. Herr Tietgens also said that a change in the by-laws was contemplated for the purpose of preventing the encroachment of foreign influence on the company. Herr Solmitz, a banker of Berlin, warned the stockholders against this change in the by-laws, and said that only three steam-ers of the company were Idle. He said that it had been announced that these would soon be added to the Baitimore service. BERLIN, March 27.-At the annual

Number of Officers. WASHINGTON, March 27.—A sub-com-mittee of the House Committee on Naval Affairs, composed of Representatives Dayton, Butler and Meyer, saw the Presi-dent to-day and discussed with him the recommendation made in his annual mes-sage to Congress for an increase in the number of officers for the navy and Marine Corps. The President impressed upon the committee the necessity for ad-ditional officers by reason of the rapidly growing navy and a tentative plan has been agreed upon by which the commit-tee will recommend an increase of 1200 men for the Marine Corps and the ap-pointment during the next four or five years of 500 additional cadets, these ap-pointments to be made upon the recom-endation of Senators and members. —The plan also contemplates a four extra by the President.

suits Boys suits \$4.50

When a customer buys a suit of clothes the price is especially in his mind; but after the purchase, when the goods are in his possession, quality is his particular concern. The buying occupies but a few moments while the presence of the goods covers a period of many months; the customer is reminded of their qualities, whether bad or good, all this time. Clothes must be satisfactory if a store intends to grow and retain customers.

Our \$9 suits are vivid examples of our telief in the above-mentioned principle. The price-interests people and the goods please them. Besides, every suit is sold with the privilege of money-back, exchange or alteration; suits kept in repair free for a year.
